

PIG LAUNCHER

The pig receiver was designed to meet customer requirements for field commissioning operations. The pig receiver is easily modified to function as a pig launcher if required. Pig receiver may be configured through any range of operating pressures. All valve operations are ROV operable based upon DTS's extensive experience with ROV tooling.

Pig Receiver

Dimensions

Length	185"	
Width	33"	
Depth	20"	
Weight	In Air	3,400 lb
	In Water	3,000 lb

Operation Criteria

Max. Water Depth	7,000 ft
Maximum Operating Pressure	2,312 psi
Test Pressure	3,468 psi
Valve Operation Torque	80 ft-lb

Shipping Frame

Dimensions

Length	188"
Width	40"
Height	33"
Weight	950 lb
Weight (With Pig Receiver)	4350 lb
